Attention Scott Sievering

Dear Mr. O'Connor:

I am writing you to check a reference of a proposal for a PCB decontamination job for Seattle City Light. We are trying to decontaminate 820,000 gallons of Bunker C oil with 75 ppm PCB. We received a proposal from Jet-Line Services, Inc. of Stoughton, Massachusetts. Also on the team is Chemical Decontamination Corporation (CHEMDECON) of Birdsboro, Pennsylvania. They listed F. O. Day Bituminous Company as a reference and claimed that they had successfully decontaminated some residual #6 oil for you. (You could confirm the above from Mr. Fred M. Wynn, Senior Vice President of Jet Line (617) 344-2510). I spoke by telephone with Mr. Peter Davis and Mr. Scott Sievering yesterday. They confirmed that Jet Line/CHEMDECON had in fact performed such a decontamination for your firm. Mr. Sievering also stated that the original level of contamination in your case was over 75 ppm. There are several areas in which I would appreciate some information:

- (1) Is the understanding that I took away from my conversations with Mr. Davis and Mr. Sievering substantially correct?
- (2) What was the volume of oil decontaminated?
- (3) What was the starting PCB level and the ending PCB level?
- (4) When was the project done?
- (5) Did CHEMDECON perform to your satisfaction?
- (6) Would you recommend them to other firms for decontamination of heavy fuel oil?

I realize that there may be factors which prevent you from answering all of our questions, but we would appreciate answers to as many of them as possible. We are eager to complete our selection process and to get our project rolling. Therefore, we would appreciate receiving a prompt response, even over the telephone. My number is (206) 625-3105. Seattle City Light's telecopying number is (206) 625-3709.

Thank you very much for your help in this matter.

Sincerely,

Timothy C. Croll, Assistant Director
